**THIS EVENT IS  
EXPECTED TO SELL OUT!  
SPACE IS LIMITED!**

During the past 90 years, Aberdeen Proving Ground (APG) has become a world leader in protecting the warfighter from conventional, chemical, biological and nuclear threats. Today, APG is preparing for its largest-ever influx of technology and knowledge, including the world-class expertise of Team C4ISR (Command, Control, Communications, Computers – Intelligence, Surveillance, Reconnaissance). With the increase of capabilities, APG will be able to offer new collaboration and commercialization opportunities for businesses, government agencies and academia.

**This is your opportunity to fully understand how the future changes at APG can impact your business.**

### The day features:

- Insights from APG and Team C4ISR senior leadership
- Networking with commercial, government, military and scientific leaders
- Presentations of available joint research and patent license opportunities
- Examples of successful partnerships
- Key points of the contracting process and funding opportunities
- Q & A sessions

### Who should attend the showcase?

- Companies – ranging from startups to large companies – that are interested in tech transfer/collaborative projects
- Entrepreneurs, independent and academic researchers, and inventors
- Current and potential contractors with APG
- Regional science, technology and education officials
- State and local economic and workforce development professionals
